Core CS: Data Structures & Algorithms, OOP, DBMS, HTTP, API Integration

PROJECTS

Job Portal Web Application | React.js, Supabase/PostgreSQL, n8n

- Built a React-based job portal with company listings, company-specific openings, job search, and application submission workflows.
- Designed user, company, job, and application data in Supabase PostgreSQL and connected frontend workflows using n8n webhooks.
- Implemented Supabase email/password authentication, integrated an external jobs API, and tested API requests, responses, and HTTP status codes using Postman.

Real-Time Chat Application | React.js, Node.js, Express.js, Socket.io, MongoDB Atlas

- Built real-time two-way messaging with Socket.io, providing instant message updates across connected clients.
- Created REST APIs to load chat history and persisted messages in MongoDB Atlas so conversations remain available after refresh.
- Used sessionStorage for username persistence and developed a responsive chat interface for desktop and mobile screens.

Responsive Portfolio Website | React.js, CSS

- Developed a mobile-first portfolio using reusable React components, CSS Flexbox/Grid, and responsive media queries.

EXPERIENCE

Web Development Intern - Skill Craft Technology | Apr 2026 - May 2026

- Built and improved responsive web interfaces while practicing front-end and full-stack development using MERN stack fundamentals.
- Improved layout responsiveness and cross-browser compatibility across multiple screen sizes.

ServiceNow University Virtual Internship - SmartBridge x AICTE x ServiceNow | Jul 2026

- Completed hands-on labs in ServiceNow Administration Fundamentals, Flow Designer, and Automated Test Framework (ATF).
- Practiced workflow automation and platform configuration aligned with Certified System Administrator (CSA) preparation.
